THE MARKET WAS WEAK

Important Railroad Stocks Made Record Low Levels.

ILLNESS OF E. H. HARRIMAN

This Had a Direct Effect on Southern Pacific, and that Stock Declined an Extreme of 1 I-4 Points-The Close Steady.

NEW YORK, May 16.—The illness of E. H. Harriman made its influence feit in to-day's stock market, and this was supplemented by the showing make by the bapks, which was interpreted by the bapks, which was interestly traceable to the condition of the health of the president of the formany. The stock declined an axtreme of the formany in the stock declined an axtreme of the formany. The stock declined an axtreme of the formany in the was suppleted by the formal and health of the market; St. Paul and Now York Central also made low record prices for the year. A light demand from the bears to cover sloris, which was in consequence steady. The nominal increase in the cash item of the banks was as much as was expected. The fact that to-day's gold export of il. 20,000 to South America was withdrawn only yesterday and so figured for only one day in the weekly averages upon which the bank statement are computed, left the probability that some effect of the transaction would be thrown over into next week's showing. The increase in loans was generally regarded as reflecting the further transfer of obligations from foreign to domestic lenders. During the money stringency of last fall the recall of over-extended foreign crediting the money market. The tendency to cut down these foreign credits now is view with satisfaction in financial circles. But the professional sentiment on the Stock Exchange confined itself to the bare showing of the statement wits its consequent inroad upon the surplus reserve.

To-day's London discount market showing of the statement wits its consequent inroad upon the surplus reserve.

To-day's London discount market showing of the statement wits its consequent inroad upon the bank lost ov

MONEY AND EXCHANGE—CLOSE: Money on call nominal; time money steady; sixty days, 3%,64 per cent.; ninety days, 3%,64 per cent.; six months, 4% per cent.; prime mercantile paper, 4½,66% per cent. Sterling exchange steady, with actual business in bankers' bills at 4.88 for demand and at 4.85 for sixty day bills posted rates, 44.83½ and 44.89½; commercial bills, 84.84%,60.84%. Bar silver, 54%; Mexican dollars, 43. Government bonds steady; railroad bonds irregular.

WEEKLY BANK STATEMENT.
NEW YORK, May 16.—The statement of averages of the clearing-house banks of this city for the week shows:
Loans, 1923,333,209; Increase, 15,859,000, Deposits, 1920,835,600; Increase, 15,000,800, Circulation, 141,239,300; Increase, 1321,000, Legal-tenders, 170,450,700; Increase, 1321,000, Specie, 165,756,490; decrease, 250,320, Reserve, 233,201,600; Increase, 233,200, Reserve required 2230,208,575; Increase, 11,250,200.
Surplus, 18,929,655; decrease, 21,07,200

EDITORS' VIEWS

of the Market. cial to The Times-Disputch.)

NEW YORK, May 16 .-- The Evening Sun NEW YORK, May 16.—The Evening Sun says: The dealings in this morning stock market were conducted practically along the same lines as the earlier part of the week. Trading was in small volume, and chiefly of the professional character.

At the same time, it appeared that the decline in prices had reached a point which had brought about some liquidation by commission houses, and selling of this character was observed in the day's market.

which had brought about some liquidation by commission houses, and selling of this character was observed in the day's market.

Declines were common throughout the list and were fairly uniform.

The market opened at a slightly higher level, chiefly in sympathy with the slight advances shown in American stocks in the Londan market, after the initial transactions, however, reactionary tendencies developed, although they were no more definitely accounted for than was the general decline of yesterday. There was a good deal of concern evident with regard to the health of the president of the Union Pacific Railroad, but the day's intelligence in this respect was reassuring. There were otherwise few circumstances of importance presented for consideration, other than those which have been engaging attention for the past fortnight. It was expected that the bank statement would make a rather negative showing, so the views regarding that document cut less than the usual influence in this trade. Active features of the railway list were Union Pacific. Southern Pacific, Southern Railway, St. Paul, Atchison and Missouri Pacific. Suchern Pacific, Southern Pacifi

sum.

In consequence of the increase of loans the deposits rose \$5,000,000 and surplus decreased \$1,007,000.

The banks now hold \$5,592,000 in excess of the lawful requirements.

of the lawful requirements.

The Evening Post says: After a week of continuous liquidation on the Stock Exchange, it is perhaps somewhat disconcerting to find an increase of \$5.859.690 in loans on the bank return.

That part of the showing cannot, however, be called mysterious. To pay off our foreign borrowings of two months ago, and at the same time provide for various capital issues which are in contemplation. New York's credit fund must be drawn upon substantially.

If as was estimated at the time, our Berlin borrowings of the spring foot up 55.000.000, and if they are being all paid off with money raised in Wall Street, then that demand alone mystage for the \$5.00.000 increase in New York's loans during the three past weeks. There

They all draw more or less on bank credits.

Pretty much all of what has occurred to disturb Wall Street's equanimity this week has been something that was clearly foreshadowed before hand. Certainly the labor situation did not come without warning, neither did the gold exports. In the cotton market the explosion has been rather more violent than most people looked for, but the stubborn maintenance of values by the New York speculative clique might at legst have suggested something of the kind. As for the disappointing showing of the export trade, the course of wheat and cotton prices has made such results inevitable.

Wall Street Gossip.

(Special to The Times-Dispatch.)

NEW YORK, May 16.—The stock mar-ket opened quiet and very featureless. There was some tendency to sag, but no-thing very marked, and the belief that the short interest was increasing had some effect in steadying prices, especial-ly expected that the traders would even up over the end of the week. Commission houses seemed to have very few orders.

HARRIMAN STOCKS:

Mr. Harriman's illness had no very marked effect at the opening, and the street seems to be still in isnorance as to what is the matter with him. There was perhans a little scattering selling of the Harriman stocks, but nothing of much consequence.

TENNESSEE COAL & IRON:
There were some earl—buying orders in the market for Tennessee Coal and Iron, but there did not seem to be much stock. The recent buying is said to have been good, and is presumably based upon the earnings, although some people consider an estimate of 15 per cent, is rather large.

something like 6,000 shares, including Union Pacific. Southern Pacific and St. Paul. This materially increases the longistion on the other side, where the sentiment on Americans seems to be getting steadily more bullish.

THE CLOSE:

The bank statement created an unfavorable impression on the market and the close was heavy, only relieved by the covering of a few shorts. There seemed to be a fresh development of liquidation in stocks hitherto unaffected, notably Brooklyn Rapid Transit, and the effect upon the rest of the market was not good.

COTTON MARKETS.

NEW YORK, May 16.—Much less excitement and activity was displayed by the cotton market this morning, and the opening was by far the tamest of the week. First prices were at an advance of 5 points to a decline of 3 points, the gain being due to covering, while the trade seemed disposed to sell the late positions in expectation of a further reaction and on the generally favorable tone of week-end crop accounts. Port receipts were estimated to excéed last year, and there were many reports of curtailed consumption. The closing Liverpool cables, while perhaps not so low as expected on futures, reported a subsiding demand for spots and a decilne of 2 points in spot prices. These factors naturally encouraged the early selling, but after showing a little further weakness values were railled a few points by New Orleans buying orders. The rally noted after the opening was of short duration, and 11 o'clock found the market 3600 points lower, with August leading the weathers under local bear pressure in the face of continued support from New Orleans.

In the last hour, however, buying orders predominated, business became more active, the general tone even more unsettled, and the market at the close was net 4 points higher in May, while other options were 3610 points lower. May closed at 11.15, July 10.71 and August 10.46, the latter being a loss of ten points from last night's final. Sales were estimated at 150,000 bales.

NEW ORLEANS, May 18.—COTTAON—The spot cotton market was very dull, only sixty bales being sold; quotations unchanged.
Futures quiet and weak. It is claimed that the market has been deliberately sold down by those in control for the purpose of shaking out timid longs, and that the buill clique will buy back again as soon as the low level they desire is reached. The present situation in cotton is a puzzle to every trader, no mater how long he has been in the business, except those who are on the inside. At the opening June was down 10 points, July 18. August 9 and the new crop months 4@ points lower. Later there was a recovery of a few points, the board at the close showing net losses of 5 points on May and June, 6 on July, 12 on August, 7 on September and 3@4 points on the other months.
Cotton futures quiet and steady: May, June, 6 on July, 12 on August, 7 on September and 324 points on the other months,
